Invisalign clear aligners can treat most mild to moderate orthodontic problems such as crowded teeth, overbites/underbites or gaps, however, not everyone will make a good candidate for Invisalign clear aligner treatment. Consulting with Dr. Lisa will help you get an idea if clear aligners are suitable for your situation.

The above offers are available for a limited time. Please mention or provide this voucher when scheduling your free consultation with our office.

Offers are valid on complete/comprehensive Invisalign treatment only. Other restrictions may apply. Please check with our office for details.
